

## Child Safe Advocates

**Child Safe Advocates** are trained staff who have a vital role in helping our College and Education and Child Service (ECS) to provide child safe responses. They are a:

- trusted adult and support for children when they are concerned for their own or another child's safety, wellbeing or are reporting conduct that the child considers as inappropriate conduct, abuse or neglect by any person associated with the College.
- contact person and support for families, workers, visitors and community members concerned for a child's safety or wellbeing or conduct of any person associated with the College or ECS that may be considered as inappropriate conduct, abuse or neglect.

Workers (staff, volunteers, contractors and any person otherwise working for, with or in the College or ECS) must share **concerns** with an Appropriate Person without unnecessary delay (immediately).

An Appropriate Person includes:

- Principal
- Nominated Supervisor
- Child Safe Advocate or
- an approved delegate as disclosed in Child Safe Anglican Education Procedures.

If concerns relate to immediate danger to a person, follow emergency/critical incident management processes, including contact with emergency services by telephoning '000'.

Fraser Coast Anglican College has adopted the Child Safe Anglican Education Policy and the associated procedures; Child Safe Responses and Child Safe Operations as published by the Anglican Schools Commission. These policies and procedures can be viewed on our college website at [fcac.com.au](http://fcac.com.au).
